Dear Josh:

Thanks for your good letter of Oct. 19. I'm glad you were able to get the Notebooks of Ed's. Yes, on the genetic side we had a series of notebooks but unfortunately I don't know what became of them. They might have been taken to Caltech in 1946 but I'm not at all sure. I'll check with Norm but I suspect we'll not find them.

You mention "a brief version which I am now enclosing." I don't find it. Did I somehow goof or did you to put it in? I hope you have a copy to spare.

I very much appreciate
your willingness to share
authorship but in all respects —
your better resources in facts, etc. —
I feel it will be far simpler
and fairer for you to go ahead
with it on your own. I'll
be glad to provide anything
I can, check facts, etc.

With all best wishes

Beets
